Summary

Passionate data analytics professional with extensive experience optimizing database performance and crafting insightful visualizations. Proficient in SQL, Python, and Microsoft Power BI, leveraging technical expertise to drive data-driven decision-making. Eager to apply analytical skills and innovative thinking to contribute effectively within a forward-thinking analytics team, transforming complex data into actionable business strategies

Projects

Front-End Development: Food Delivery Website
Jaipur, India
2024

- Designed and built a responsive food delivery website interface with user-friendly navigation.
- Ensured mobile responsiveness and cross-browser compatibility using modern CSS techniques and media queries.
- Focused on clean UI/UX design to improve user engagement

📊 Sales Performance Analysis
Jaipur, India
2025

- Collected and cleaned sales data from multiple CSV files using Excel and Power Query.
- Created pivot tables and dynamic dashboards to visualize key metrics like monthly revenue, top-selling products, and regional sales trends
- Built an interactive Power BI dashboard with filters for product category, region, and time range to support business decision-making.
- Identified a 16% dip in sales in one region, leading to actionable marketing insights
